

SANJAY YADAV

Ulhasnagar, Thane, Maharashtra - 421002

☎ 8483088615 ✉ sy163182@gmail.com 🔗 [linkedin.com/in/sanjay-yadav-2813852ab/](https://www.linkedin.com/in/sanjay-yadav-2813852ab/) 🌐 github.com/sanjay-yadav-05

Technical Skills

Languages: JavaScript, TypeScript, Java, Python, SQL

Developer Tools: MongoDB, MySQL, PostgreSQL, Kafka, Kong, Docker, Postman, Grafana, Prometheus

Technologies/Frameworks: MERN Stack, NestJS, GraphQL, Tailwind CSS, Spring Boot, Socket.io, GCP

Coding Profiles: [LeetCode](#), [HackerRank](#), [Codeforces](#), [GeeksforGeeks](#)

Experience / Extracurricular

SDE **Oct 2025 – Present**

ClearN

Mumbai, Maharashtra

- Developing a **FinTech payment platform** that enables school ERPs to manage student fee collection through a unified payment infrastructure.
- Building scalable backend services and **REST and GraphQL APIs** using **NestJS, TypeScript**, and **MongoDB**, with **ReactJS** for platform development.
- Integrating multiple payment gateways including **Cashfree, Razorpay, Easebuzz**, and banking payment providers across various payment modes.
- Contributing to the end-to-end payment lifecycle including **payment collection, settlements, reconciliation, refunds**, and transaction management while continuously delivering new features and integrations.

DSA Expert **Jun 2024 – Jun 2025**

GDGC DBIT

Mumbai, Maharashtra

- Designed and led a **40-day DSA bootcamp** on core data structures and algorithms, organized a HackerRank contest with **50+ participants**, and curated a structured practice sheet from LeetCode and GFG with detailed solutions.
- Mentored 20+ participants in the **Google Gen AI Study Jam**, helping them explore AI tools and frameworks.

Projects

Planify – AI-Augmented Event Management Platform | *Next.js, FastAPI, PostgreSQL, LLMs* **Jul 2025 – Present**

- Developed a **full-stack, AI-powered event management platform** enabling end-to-end lifecycle management with multi-tenant architecture and role-based access control.
- Architected a **microservices-based system with 6+ AI services** using FastAPI, reducing manual event operations by **45%** through automation (team formation, talent scraping, report generation).
- Built **multimodal AI pipelines** processing **100+ images/videos**, leveraging PyTorch, CLIP, YOLOv8, and NIMA to improve content selection accuracy by **30%** and automate media generation.

CodeCraft – Learn, Practice & Battle | *Next.js, Node.js, MongoDB, Gemini, Ollama, WebSocket* **Mar 2025**

- Developed a **full-stack coding platform** enabling 100+ users to learn, practice, and compete in programming challenges with real-time execution support.
- Integrated **Gemini + Ollama LLMs** to provide AI-powered problem recommendations, hints, and **automated challenge verification**, ensuring fairness and accuracy in evaluations.
- Implemented **real-time coding battles with WebSocket**, supporting 50+ concurrent duels with minimal latency.

DSABUDDY | *React, JavaScript, CSS* **Apr 2024**

- Engineered an interactive platform to simulate **Data Structures and Algorithms**, enabling real-time code generation and intuitive visualizations that improved user engagement by **40%**.

Honors / Awards

- 1st Place, Debugging Marathon, GDGC, Pillai College of Engineering – Mar 2025
- 1st Runner-Up, Codeverse Hackathon, Don Bosco Institute of Technology, Mumbai – Mar 2025
- Top 10 Finalist and Adaptive & Promising Title Winner, IDEA Hackathon, K.J. Somaiya College of Engineering, Mumbai – Mar 2025

Training / Courses

Godrej Infotech Data Analytics Training **Aug 2024 – Oct 2024**

- Completed training in data analytics with Power BI and cloud computing, focusing on advanced data visualization.

AWS Academy Cloud Foundation and Architecting **Aug 2024 – Sep 2024**

- Completed foundational and architecting courses on AWS, covering core services like compute, storage, databases, and machine learning.

Education

Don Bosco Institute of Technology **Nov 2022 – Present**

Bachelor of Engineering in Computer Engineering – 8.6 CGPA

Mumbai, Maharashtra
